Michael Page

The original PageGroup brand, Michael Page is comprised of 25 disciplines, each providing a service to a specialist area of the market. Operating at the qualified professional and management level, Michael Page recruits on a permanent, temporary, contract or interim basis.

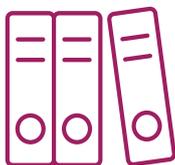

Page Personnel

Page Personnel offers specialist recruitment services to organisations requiring permanent employees or temporary or contract staff at technical and administrative support, professional clerical and junior management levels.

OUR SOLUTIONS

We recognise that businesses of all sizes and maturity can go through considerable changes for a variety of reasons such as involvement in a start-up environment, building or scaling a shared services hub, new market entry that includes the opening of offices and factories, business expansion, restructuring and listings, or simply responding to a change in business conditions and environment.

We have a model that can work across multiple industries and support all types of businesses including start-ups, small and mid-sized companies, multinationals, large corporates and conglomerates with the following solutions:

Project resourcing

We deliver for your specific project or required volume of hires

We assume responsibility over the recruitment life cycle needs of certain key areas of your company. It's our most agile offering, yet still fully tailored to you and your key business objectives. Short-term and project specific, these projects highlight the depth of talent we can call on to meet your project objectives.

Relocation • Merger & acquisition • Organisation design
Business transformation • Systems integration • New market entry

Service resourcing

Let us take care of all elements of your recruitment functions

Page Resourcing will manage your talent acquisition and resourcing functions across all business areas. We utilise the scope and capability of our three brands, who source across 25 specialist disciplines in over 20 APAC locations.

Process resourcing

You choose which elements of your recruitment process are handed over to us

In some cases you may simply need support with one area of your recruitment process. With process resourcing, we manage your resources and meet your defined metrics, before handing back to your HR team. This could entail us taking partial ownership of the recruitment process, liaising between HR and candidate, or even integrating with your in-house HR tools. We can provide extensive additional resourcing services, including:

Market mapping • CV screening • Psychometric testing • Assessment centres
